

Make these great Xmas decorations.

They look pretty and you can put them away to use next year too!

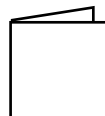

- 1 Get a square piece of paper.

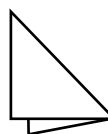

- 2 Fold it in half.

- 3 Fold it again - sideways so you end up with a square.

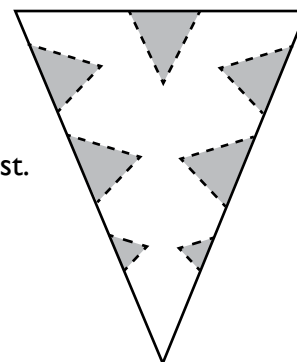

- 4 Fold it towards yourself so it makes a triangle shape.

- 5 With the point facing downwards, even off the top so it's a cone shape with a pair of scissors.

- 6 Then its up to you, cut different shapes into your triangle and then unfold to reveal your snowflake. Here's an example for you to try first.

- 7 Then decorate with glitter.

Now you've made your first snowflake don't stop there! Here's a few things you can do with them:

Decorate the Christmas tree with small ones that you've threaded cotton through.

Stick them on the inside of the window with some blutac.

Stick them onto coloured card to make Christmas cards for special people.
