

## Rainbow Catcher

### What you will need:

- Scissors
- Glue stick
- Pin/Sharp pencil (optional)
- Short piece of sting/wool(optional)

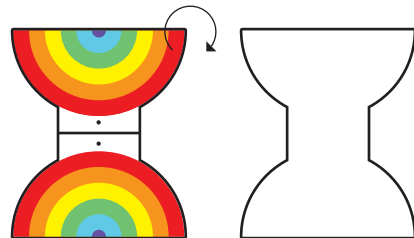

### STEP 1:

Cut out the rainbow shapes and coloured strips by carefully cutting along the dotted lines.

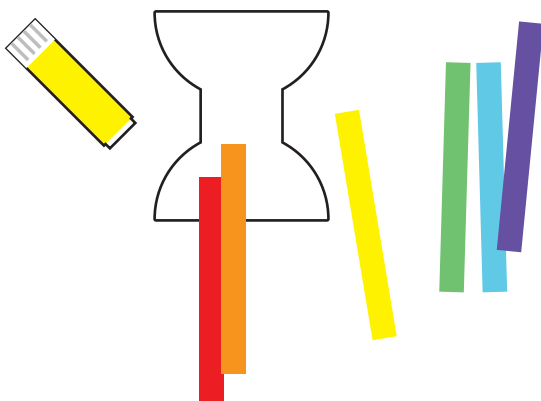

### STEP 2:

Turn the rainbow over so you have the blank side facing up.

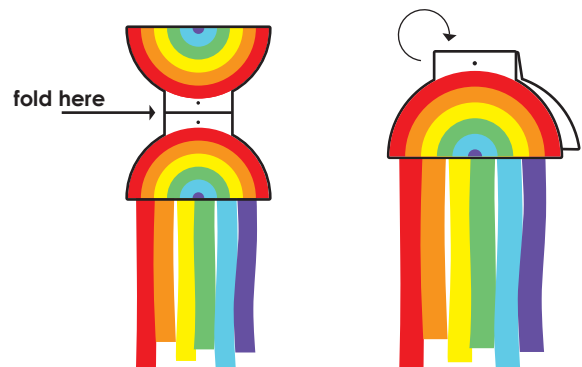

### STEP 3:

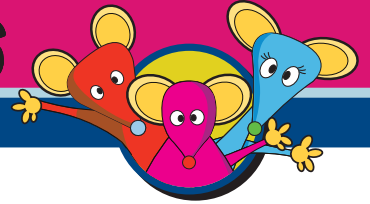

With a glue stick, glue the coloured strips on to the blank side of the rainbow.

### STEP 4:

Fold along the black line in the middle of the rainbow, so you have a rainbow on each side.

# Rainbow Catcher

## STEP 5

Glue the 2 rainbows together.

## STEP 6

You can attach your rainbow catcher to your window with blu-tack. Or you can punch a hole with a pin or sharp pencil through the dot on top of the rainbow, and thread through a piece of string or wool, tie the ends together, and you can hang your rainbow catcher up.
