Make a Summer Scrapbook

Make this Summer one to remember and make a fun scrapbook of everything you do. That way you'll have lots to show and tell everyone when the new term starts. Whether you're going away or staying at home here's lots of ideas to help you get started.

Why not write about your favourite games and activities you have enjoyed on Mouse Club?

Here's what you'll need (the basics):

An empty scrapbook or any large empty book

Craft scissors

Sellotape and glue

Why not collect:

Postcards and photos

Dried flowers (you can do this by pressing them in the pages of a heavy book for a few days)

Bus, train or flight tickets

Cinema tickets

Drawings and paintings

Poems and jokes

Stickers and stick on letters

Shells

Tickets to amusement parks

Map/directions

Ribbon, sweet wrappers

Stick the collections into your scrapbook and add notes about them so that you can show your friends and family.

Here's a new idea - why not create a digital scrapbook if you have access to a computer? It's a lot less stressful on the environment and saves money on glue and sellotape. If you have a scanner, you can scan your collections into your digital scrapbook.
