

Mouse Hands

- Carefully cut along the dotted lines with some scissors.
- Make holes at the side of the hands at points A and B.
- Thread some string or elastic through the holes to tie the hands around your child's wrists. Be careful not to tie the string too tightly (elastic is preferable).

TIP: To make your hands stronger, you could print it on to card. If you don't have any card to print directly on to, why not stick your printout on to card (e.g. an empty cereal box) before cutting them out.

Note: These are activities for you and your child to enjoy together. The safety of your child is very important. Please use caution when using scissors and other materials in your child's presence.
