Mouse Tail

- Carefully cut along the dotted lines with some scissors.
- Make holes at the top of the tail at points A and B.
- Thread some string or elastic through the holes to tie the tail around your child.

TIP: To make your tail stronger, you could print it on to card. If you don't have any card to print directly on to, why not stick your printout on to card (e.g. an empty cereal box) before cutting them out.

Note: These are activities for you and your child to enjoy together. The safety of your child is very important. Please use caution when using scissors and other materials in your child's presence.
