Father's Day Card

You will need: Scissors, paper clip, colouring pencils, a tea bag and an adult to help with the cutting out.

Make this special Father's Day card. Cut along the dotted lines below and then fold the card in half and then in half again. You should be left with a mug shaped card with a message in the middle. Sign the card and attach a tea bag inside, just above the writing. Colour the lettering on the front in bright colours.
