KIDS

Blue Finger Puppet

1. Cut around the puppet very carefully following the dotted line.
2. Cut out the two holes shown at the base of the puppet.
3. Put your fingers through the holes to be the legs.
4. Your child can now play with the puppet.
Why not make a Roly and Red puppet aswell?
You can use them to tell stories or play a fun game with your child.

Tip: To make your puppet stronger print on to card instead of paper. If you don't have card that you can print on why not stick your designs on to card (i.e. an empty cereal box) before cutting them out.

Note: These are activities for you and your child to enjoy together. The safety of your child is very important. Please use caution when using scissors and other materials in your child's presence.
